AIMS

The aim of the course is to continue to offer students intellectual training while helping them to master written and audio-visual communication. With this in view, a reflexion on the link between text and image is organized around a specific theme in human sciences : VIOLENCE. This work will lead to the production of a written and illustrated synthesis on the theme.

Objectives are :

- to organize one's reflexion in a structured way, identify and address the issues
- to understand and use the complementarity of varying modes of communication
- to master writing techniques
- to be able to interpret the meaning of a text or image
- through a theme in human sciences, to encourage the critical turn of mind necessary in apprehending the stakes of the modern world, as well as the intelligent use of tools of communication which will be useful in the workplace

BIBLIOGRAPHY

Depending on the teacher

Bibliography, filmography and iconography on the theme of violence and on the languages of the image and audio-visual communication.

PRE-REQUISITE

The capacity to organize, synthesize and perceive the issues at stake whether writing or speaking. Methods acquired during the first year.
