AIMS

To consolidate, acquire, and enrich linguistic knowledge and skills by developing the competences defined by the Common European Framework of Reference for Languages. Students are divided into groups based on level, and specific linguistic objectives are determined according to the student's level.

CONTENT

In order to develop the defined learning outcomes, the course will employ language activities that are varied (written comprehension and expression, oral comprehension and expression, oral interaction) and complex (projects, simulations, etc.).

The activities are designed to promote maximum language exposure and the use of the target language as a vehicle of culture and as a tool for work and communication.

The student will become more autonomous through group work and personal work.
