AIMS

The overall objective is to build his/her own professional project. If the assessment takes place in the 5th year, the work must start during the 3rd year.

The aim is :

- Allow the student to choose his/her 4th and 5th year differentiated path
- Understand and know the trades and sectors associated with the different aspects of training
- Self-assessment and identification of competencies acquired or to be acquired
- Choose the aspects of its training to be strengthened
- Establish his/her professional project based on personal skills and self-knowledge.

CONTENT

1. Evaluation of the spontaneous representations on the differentiated paths
2. Interventions of partner companies and other engineers
3. Active participation in at least one collective activity (promotion of the department, management of the FabLab of the department, Professional day, company coffees, contacts with alumni, sponsorship of the promotion, presentation of the department, organization of the integration week , Inter-Semester Week, End-of-Studies Travel, GM Awards, Graduation Ceremony)
4. Self-Assessment Techniques and Building a personal skills Portfolio

If needed,a methodological aid can be provided for the writing of their CV and their cover letters during their search for internship.
