CONTENT

The TANDEM modules offer linguistic and cultural exchanges between French-speaking students and German-speaking, English-speaking and Spanish-speaking students in each of the languages.

The INTERCOMPREHENSION module is all about learning to understand native speakers of a Romance language different to one's own. Each student speaks their native language and learns to understand the others.

The work is carried out by organizing a debate around a controversial subject, by writing a story, by presenting an element belonging to the specific culture, by playing board games ... in short, by interacting permanently and in any form possible with other students fluent in the different working languages.

Of course, oral comprehension is also at the heart of this course. It is a living, authentic learning in the spirit of sharing. Everyone has something to learn and to pass on.

For francophone students: B2 in German or English or Spanish

For anglophone students: B1 minimum in French
